Paul Feghali

CIVIL ENGINEER · CEO OF BATISPRO

PROFILE

Civil engineer specialising in structures, with more than 35 years of experience in France and Lebanon. Trained in technical inspection at Bureau Veritas, I have led BATISPRO, a construction consulting and management firm, since 1999, and have taught construction methods at the Lebanese Academy of Fine Arts since 1996.

EXPERIENCE

CEO
1999 – present

BATISPRO, construction consulting and management · Bsalim, Lebanon

- Manages projects from design to handover: client advisory, contractor coordination, site supervision.
- Sports, education, religious and residential buildings, including a 36,000 m^2 sports club in Bsalim.
- Special works: an underground playground and an apartment building in Hazmieh.

Property developer
1999 – present

Own developments · Lebanon

- Designs and delivers residential buildings in Antelias, Jal el Dib, Zouk Mosbeh and Broumana.

Lecturer
1996 – present

Lebanese Academy of Fine Arts (ALBA) · Lebanon

- Runs the course on general construction methods (Procédés généraux de construction).

Consulting engineer
1996 – present

Structural engineering and design practice · Lebanon

- Structural design and calculation for residential, public and religious buildings.

Building inspector, technical control
1989 – 1996

Bureau Veritas · Île-de-France, France

- Technical inspection of all types of buildings in the Paris region.
- In-depth continuing training across all building trades (see Education and training).
